

Tested & certified in accordance with
BSEN 131-2: 2010 + A1: 2012.
First stile of this type in Europe with "BSEN" certification.

Signiatec

The Signiatec Fixed Platform Stile is a unique design which conforms to BSEN 131-2: 2010 + A1: 2012. It's robust, yet light-weight design makes it an ideal solution to safely cross over fencing, stone walls and hedgerows. It's subtle paint finish (with optional high-visibility handrail) ensures minimum impact on the surrounding scenery, providing an essential safe passage for hill walkers and walking trail enthusiasts.

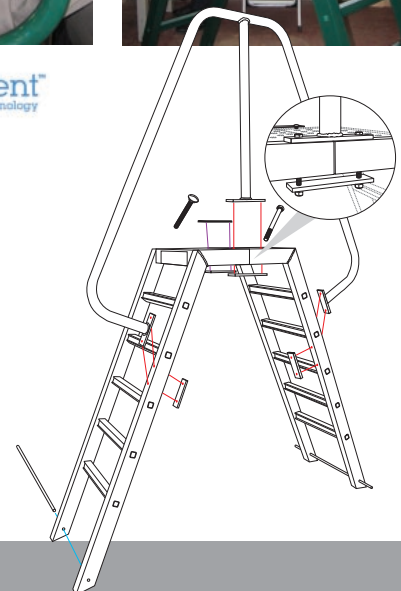

The images here show the stile undergoing thorough tests to conform with the BSEN Standard. The tests took place at Element Materials Technology, Sheffield on 9/5/2013

Advantages of the Fixed Platform Stile:

- Complete aluminium construction
- Powder coated paint finish
- Easy and quick to assemble
- 40mm non slip ladder rungs
- Non slip aluminium safedek
- 50mm aluminium handrail
- Handrail bolted at 6 points
- High visibility markings
- Dismantleable for ease of transport
- Guaranteed against corrosion
